Informational Report

Discipline Making Request	Action	Justification	Move to CAB Agenda for Discussion (X)
Physical Education	Change of course rubric from PHED to KINE. Rename Physical Education discipline to Kinesiology.	The Texas Higher Education Coordinating Board recognizes either PHED or KINE in its Academic Course Guide Manual for activity courses. Although 28 of 48 Texas public two-year schools use PHED, only four Texas public four-year schools still use PHED. Overwhelmingly, baccalaureate colleges and universities use KINE and name their departments and discipline as Kinesiology. It is Collin College's mission to prepare our transfer students for transitioning to the baccalaureate program of their choice; therefore, use of the KINE rubric aligns with their degree destination and facilitates the transition for Collin students. This is a national trend as well as a Texas trend.	
Photography	Change of course title and add prerequisite. **PHTC 1300 - Photo Digital Imaging I** New title: Digital Photography II Prerequisite: ARTS 2348 **PHTC 1341 - Color Photography I (Theory and Management)** New title: Color Photography I Prerequisites: PHTC 1300 or ARTS 2349 **PHTC 2349 - Photo Digital Imaging II** New Title: Digital Photography III Prerequisites: PHTC 1300 or ARTS 2349	The department would like to request course title change and prerequisite to three photography courses. The requested changes will benefit student success by clarifying the course content with a clearer course title. Similar names and recurring numbers cause some confusion and by changing the course title, students will understand the appropriate course sequence for the three digital photography courses. The changes will line the three courses up with the same title Digital Photography followed by the appropriate sequence designation I, II, and III. ARTS 2349 was deleted by the ACGM committee and PHTC 1300 is its equivalent. Therefore, the prerequisite for PHTC 2349 and PHTC 1341 is PHTC 1300 or ARTS 2349. ARTS 2348 (Digital Photography I) will be added as a prerequisite to PHTC 1300. This solution is easy for a student to understand and advisors to follow without confusion.
