COLLIN COLLEGE

Continuous Improvement Plan (CIP) Documentation

Date August 11, 2014 Name of Administrative or Educational Support Unit: Emergency Medical Services Professions (EMSP)

Contact name: James Shiplet Contact email: JShiplet@collin.edu Contact phone: 972.548.6848 Office Location: CPC – B-218

Mission:

The EMS Education Program at Collin College provides quality initial and continuing education in Emergency Medicine to the citizens, industries, fire departments and EMS agencies of its service delivery area by evaluating quality of instruction which is accomplished through employer surveys, student feedback, student examinations, and advisory committee input. We are dedicated to the student who desires knowledge in emergency medicine. The Collin EMS Education Program will provide an environment conducive to learning, which includes state of the art facilities along with excellent faculty and skills instructors.

PART I: Might not change from year to year

A. Outcomes(s) Results expected in this department/program	B. Measure(s) The instrument or process used to measure results	C. Target(s) The level of success expected
Develop a Treatment Plan: Integrates complex knowledge of anatomy, physiology and pathophysiology into the assessment to develop and implement a treatment plan with the goal of assuring a patient airway, adequate mechanical ventilation and respiration for patients of all ages.	National Registry of Emergency Medical Technicians Paramedic licensure cognitive and practical examinations.	Meet or exceed the state and national pass rate (75%) on the National Registry of Emergency Medical Technicians Paramedic licensure cognitive and practical examinations AIRWAY Section.
Field Impression with Treatment Plan: Integrated assessment findings with principles of epidemiology and pathophysiology to formulate a field impression and implement a comprehensive treatment/disposition plan for a patient with a medical complaint.	National Registry of Emergency Medical Technicians Paramedic licensure cognitive and practical examinations	Meet or exceed the state and national pass rate on the National Registry of Emergency Medical Technicians Paramedic licensure cognitive and practical examinations MEDICAL Section.
Scene and Patient Findings: Integrate scene and patient assessment findings with knowledge of epidemiology and pathophysiology to form a field impression for a patient with a trauma complaint.	National Registry of Emergency Medical Technicians Paramedic licensure cognitive and practical examinations	Meet or exceed the state and national pass rate on the National Registry of Emergency Medical Technicians Paramedic licensure cognitive and practical examinations TRAUMA Section.
Special Needs Treatment Plan: Integrates assessment findings with principles of pathophysiology and knowledge of psychosocial needs to formulate a field impression and implement a comprehensive treatment/disposition plan for patients with special needs.	National Registry of Emergency Medical Technicians Paramedic licensure cognitive and practical examinations	Meet or exceed the state and national pass rate on the National Registry of Emergency Medical Technicians Paramedic licensure cognitive and practical examinations OB/PEDS Section
