Informational Report

Discipline Making Request	Action	Justification	Move to CAB Agenda for Discussion (X)
Health Professions - Certified Nurse Aide (CNA) Track Patient Care Technician (PCT) Track Phlebotomy Technician (PHLEB) Track	Course prerequisite change **NURA1301 - Nurse Aide for Health Care** ~~*Prerequisites*: HITT 1305, and HPRS 1204 or HPRS 1271; or consent of Program Director~~ **PLAB1323 - Phlebotomy** *Prerequisite:* ~~HITT 1305, and HPRS 1204 or HPRS 1271, and~~ Current Healthcare Provider Cardiopulmonary Resuscitation (CPR) Certification from American Heart Association (AHA)~~; or consent of Program Director~~	The reason the department is asking to remove the prerequisites from NURA1301 and PLAB1323 is that many students are coming straight into clinical and/or are not planning to take any other courses. While those courses are beneficial, making them mandatory prerequisites has caused a huge challenge for registration as the students keep getting error messages until pre-requisites are overridden.
