Source: Collin College faculty workload data for 201310 and corresponding faculty job codes generated by Administrative Programming Services.

Note 1: Statistics include information reported on the Fall 2012 Faculty Load Report as of the end of the term. Noncredit students are not reflected in this report.

Note 2: To facilitate payment of salaries, the faculty load data occasionally include multiple instances of a single section when that section is taught by more than one faculty member. This occurs in learning communities, a number of lab and clinical sections in Health Sciences and Emergency Services, and a few sections in other divisions. However, for purposes of this report, counting contact hours associated with multiple instances of a single section would inappropriately inflate contact hour totals by counting the same contact hours more than once. To avoid over-counting contact hours, multiple instances of the same section were either collapsed into a single instance (learning communities and instances when only one faculty member received remuneration for the section) or enrollment numbers were distributed across the instances to more accurately reflect the actual total enrollment generated.

[1]For purposes of this report, full-time faculty members are defined as anyone teaching a section that appears on the "Fall 2012 Faculty Workload Report" who either has a Banner job code of F1 or F2 or who is a full-time temporary faculty member with a job code of F3. All other faculty members are defined as part-time. Some full-time instructional department heads with substantial teaching responsibility are classified as part-time faculty members because they do not have one of the above-listed job codes.

Source: Collin College faculty workload data for 201310 and corresponding faculty job codes generated by Administrative Programming Services.

Note 1: Statistics include information reported on the Fall 2012 Faculty Load Report as of end of the term. Noncredit students are not reflected in this report. This table includes all contact hours taught at CPC plus all contact hours taught by faculty members overseen by a CPC dean at off-campus sites.

Note 2: To facilitate payment of salaries, the faculty load data occasionally include multiple instances of a single section when that section is taught by more than one faculty member. This occurs in learning communities, a number of lab and clinical sections in Health Sciences and Emergency Services, and a few sections in other divisions. However, for purposes of this report, counting contact hours associated with multiple instances of a single section would inappropriately inflate contact hour totals by counting the same contact hours more than once. To avoid over-counting contact hours, multiple instances of the same section were either collapsed into a single instance (learning communities and instances when only one faculty member received remuneration for the section) or enrollment numbers were distributed across the instances to more accurately reflect the actual total enrollment generated.

[1]For purposes of this report, full-time faculty members are defined as anyone teaching a section that appears on the "Fall 2012 Faculty Workload Report" who either has a Banner job code of F1 or F2 or who is a full-time temporary faculty member with a job code of F3. All other faculty members are defined as part-time. Some full-time instructional department heads with substantial teaching responsibility are classified as part-time faculty members because they do not have one of the above-listed job codes.

Source: Collin College faculty workload data for 201310 and corresponding faculty job codes generated by Administrative Programming Services.

Note 1: Statistics include information reported on the Fall 2012 Faculty Load Report as of the end of the term. Noncredit students are not reflected in this report. This table includes all contact hours taught at PRC plus all other contact hours taught by faculty members overseen by a PRC dean at off-campus sites.

Note 2: To facilitate payment of salaries, the faculty load data occasionally include multiple instances of a single section when that section is taught by more than one faculty member. This occurs in learning communities, a number of lab and clinical sections in Health Sciences and Emergency Services, and a few sections in other divisions. However, for purposes of this report, counting contact hours associated with multiple instances of a single section would inappropriately inflate contact hour totals by counting the same contact hours more than once. To avoid over-counting contact hours, multiple instances of the same section were either collapsed into a single instance (learning communities and instances when only one faculty member received remuneration for the section) or enrollment numbers were distributed across the instances to more accurately reflect the actual total enrollment generated.

[1]For purposes of this report, full-time faculty members are defined as anyone teaching a section that appears on the "Fall 2012 Faculty Workload Report" who either has a Banner job code of F1 or F2 or who is a full-time temporary faculty member with a job code of F3. All other faculty members are defined as part-time. Some full-time instructional department heads with substantial teaching responsibility are classified as part-time faculty members because they do not have one of the above-listed job codes.

Source: Collin College faculty workload data for 201310 and corresponding faculty job codes generated by Administrative Programming Services.

Note 1: Statistics include information reported on the Fall 2012 Faculty Load Report as of the end of the term. Noncredit students are not reflected in this report.

Note 2: To facilitate payment of salaries, the faculty load data occasionally include multiple instances of a single section when that section is taught by more than one faculty member. This occurs in learning communities, a number of lab and clinical sections in Health Sciences and Emergency Services, and a few sections in other divisions. However, for purposes of this report, counting contact hours associated with multiple instances of a single section would inappropriately inflate contact hour totals by counting the same contact hours more than once. To avoid over-counting contact hours, multiple instances of the same section were either collapsed into a single instance (learning communities and instances when only one faculty member received remuneration for the section) or enrollment numbers were distributed across the instances to more accurately reflect the actual total enrollment generated.

[1]For purposes of this report, full-time faculty members are defined as anyone teaching a section that appears on the "Fall 2012 Faculty Workload Report" who either has a Banner job code of F1 or F2 or who is a full-time temporary faculty member with a job code of F3. All other faculty members are defined as part-time. Some full-time instructional department heads with substantial teaching responsibility are classified as part-time faculty members because they do not have one of the above-listed job codes.

Source: Collin College faculty workload data for 201310 and corresponding faculty job codes generated by Administrative Programming Services.

Note 1: Statistics include information reported on the Fall 2012 Faculty Load Report as of the end of the term. Noncredit students are not reflected in this report.

Note 2: To facilitate payment of salaries, the faculty load data occasionally include multiple instances of a single section when that section is taught by more than one faculty member. This occurs in learning communities, a number of lab and clinical sections in Health Sciences and Emergency Services, and a few sections in other divisions. However, for purposes of this report, counting contact hours associated with multiple instances of a single section would inappropriately inflate contact hour totals by counting the same contact hours more than once. To avoid over-counting contact hours, multiple instances of the same section were either collapsed into a single instance (learning communities and instances when only one faculty member received remuneration for the section) or enrollment numbers were distributed across the instances to more accurately reflect the actual total enrollment generated.

[1]For purposes of this report, full-time faculty members are defined as anyone teaching a section that appears on the "Fall 2012 Faculty Workload Report" who either has a Banner job code of F1 or F2 or who is a full-time temporary faculty member with a job code of F3. All other faculty members are defined as part-time. Some full-time instructional department heads with substantial teaching responsibility are classified as part-time faculty members because they do not have one of the above-listed job codes.

Source: Collin College faculty workload data for 201310 and corresponding faculty job codes generated by Administrative Programming Services.

Note: For purposes of this report, full-time faculty members are counted only once. They are counted in their primary teaching divisions and departments. Part-time faculty members are counted once for each distinct division in which they have teaching assignments. A total of 16 part-time faculty members are counted for two teaching assignments apiece, and one part-time faculty member is counted for three teaching assignments.

[1]For purposes of this report, full-time faculty members are defined as anyone teaching a section that appears on the "Fall 2012 Faculty Workload Report" who either has a Banner job code of F1 or F2 or who is a full-time temporary faculty member with a job code of F3. All other faculty members are defined as part-time. Some full-time instructional department heads with substantial teaching responsibility are classified as part-time faculty members because they do not have one of the above-listed job codes.

Source: Collin College faculty workload data for 201610 and corresponding faculty job codes, both generated by Administrative Programming Services.

[1]For purposes of this report, full-time faculty members are defined as anyone teaching a course section that appears on the "Fall 2015 Faculty Workload Report" who either has a Banner job code of F1 or F2 or who is a full-time temporary faculty member with a job code of F3. All other faculty members are defined as part-time. Some full-time instructional department heads with substantial teaching responsibility are classified as part-time faculty members because they do not have one of the above-listed job codes.

Note 1: Statistics include information reported on the Fall 2015 Faculty Load Report as of the end of the term. Noncredit students are not reflected in this report.

instances of a single section when that section is taught by more than one faculty member. This occurs in learning communities, a number of lab and clinical sections in Health Sciences and Emergency Services, and a few sections in other divisions. However, for purposes of this report, counting contact hours associated with multiple instances of a single section would inappropriately inflate contact hour totals by counting the same contact hours more than once. To avoid over-counting contact hours, multiple instances of the same section were either collapsed into a single instance (learning communities and instances when only one faculty member received remuneration for the section) or enrollment numbers were distributed across the instances to more accurately reflect the actual total enrollment generated.

[1]For purposes of this report, full-time faculty members are defined as anyone teaching a course section that appears on the "Fall 2015 Faculty Workload Report" who either has a Banner job code of F1 or F2 or who is a full-time temporary faculty member with a job code of F3. All other faculty members are defined as part-time. Some full-time instructional department heads with substantial teaching responsibility are classified as part-time faculty members because they do not have one of the above-listed job codes.

Note: For purposes of this report, each full-time faculty member is counted only once in the division and department where s/he has her/his primary teaching assignment. Part-time faculty members are counted in each division and department in which they have teaching assignments, so part-time instructors may be counted more than once.

Source: Collin College faculty workload data for 201710 and corresponding faculty job codes, both generated by Administrative Programming Services.

[1]For purposes of this report, full-time faculty members are defined as anyone teaching a course section that appears in the fall 2016 FLAC System who either has a Banner contract type of FT and a Banner PRTPICT code of "FC" or "FN.". All other faculty members are defined as part-time.

Note 1: Statistics include information from the fall 2016 FLAC System as of 10/25/2016. Noncredit students are not reflected in this report.

single section when that section is taught by more than one faculty member. This occurs in learning communities, a number of lab and clinical sections in Health Sciences and Emergency Services, and a few sections in other divisions. However, for purposes of this report, counting contact hours associated with multiple instances of a single section would inappropriately inflate contact hour totals by counting the same contact hours more than once. To avoid over-counting contact hours, multiple instances of the same section were either collapsed into a single instance (learning communities and instances when only one faculty member received remuneration for the section) or enrollment numbers were distributed across the instances to more accurately reflect the actual total enrollment generated.

Source: Collin College faculty workload data for 201710 and corresponding faculty job codes, both generated by Administrative Programming Services.

[1]For purposes of this report, full-time faculty members are defined as anyone teaching a course section that appears on the "Fall 2016 Faculty Workload Report" who either has a Banner job code of F1 or F2 or who is a full-time temporary faculty member with a job code of F3. All other faculty members are defined as part-time. Some full-time instructional department heads with substantial teaching responsibility are classified as part-time faculty members because they do not have one of the above-listed job codes.

Note 1: Statistics include information reported on the Fall 2016 Faculty Load Report as of the end of the term. Noncredit students are not reflected in this report.

Note 2: To facilitate payment of salaries, the faculty load data occasionally include multiple instances of a single section when that section is taught by more than one faculty member. This occurs in learning communities, a number of lab and clinical sections in Health Sciences and Emergency Services, and a few sections in other divisions. However, for purposes of this report, counting contact hours associated with multiple instances of a single section would inappropriately inflate contact hour totals by counting the same contact hours more than once. To avoid over-counting contact hours, multiple instances of the same section were either collapsed into a single instance (learning communities and instances when only one faculty member received remuneration for the section) or enrollment numbers were distributed across the instances to more accurately reflect the actual total enrollment generated.

Note 3: The abbreviations "(DW)" signifies that a dean and associate dean has District-wide responsibility for the associated discipline or disciplines. For disciplines not so identified, the dean and associate dean have responsibility only for courses taught at their campus or at off-campus instructional sites assigned to their campus.

Source: Collin College faculty workload data for 201510 and corresponding faculty job codes, both generated by Administrative Programming Services.

[1]For purposes of this report, full-time faculty members are defined as anyone teaching a course section that appears on the "Fall 2014 Faculty Workload Report" who either has a Banner job code of F1 or F2 or who is a full-time temporary faculty member with a job code of F3. All other faculty members are defined as part-time. Some full-time instructional department heads with substantial teaching responsibility are classified as part-time faculty members because they do not have one of the above-listed job codes.

Note 1: Statistics include information reported on the Fall 2014 Faculty Load Report as of the end of the term. Noncredit students are not reflected in this report.

Note 2: To facilitate payment of salaries, the faculty load data occasionally include multiple instances of a single section when that section is taught by more than one faculty member. This occurs in learning communities, a number of lab and clinical sections in Health Sciences and Emergency Services, and a few sections in other divisions. However, for purposes of this report, counting contact hours associated with multiple instances of a single section would inappropriately inflate contact hour totals by counting the same contact hours more than once. To avoid over-counting contact hours, multiple instances of the same section were either collapsed into a single instance (learning communities and instances when only one faculty member received remuneration for the section) or enrollment numbers were distributed across the instances to more accurately reflect the actual total enrollment generated.

[1]For purposes of this report, full-time faculty members are defined as anyone teaching a course section that appears on the "Fall 2014 Faculty Workload Report" who either has a Banner job code of F1 or F2 or who is a full-time temporary faculty member with a job code of F3. All other faculty members are defined as part-time. Some full-time instructional department heads with substantial teaching responsibility are classified as part-time faculty members because they do not have one of the above-listed job codes.

Note: For purposes of this report, each full-time faculty member is counted only once in the division and department where s/he has her/his primary teaching assignment. Part-time faculty members are counted in each division and department in which they have teaching assignments, so part-time instructors may be counted more than once.
