

Tracking Cougar Curriculum

August 2018

CURRICULUM UPDATES

During the 2017-2018 academic year, the Curriculum Office worked collaboratively with VP/Provosts, Deans, Associate Deans, Directors, Discipline Leads, Faculty, and the Curriculum Advisory Board (CAB) to successfully plan and develop new programs as well as to revise existing programs to better serve the academic needs of our students. We are pleased to announce that the Texas Higher Education Coordinating Board (THECB) has recently approved these new programs and revisions. For more information about each of these programs, please refer to the [Catalog](#).

FOCUS ON SKILLS

To emphasize the value of higher education in the workforce, Collin College's academic and workforce programs, collectively, are designed to enhance students' interpersonal, cognitive, and applied skills through cross-curricular and extracurricular learning experiences. Studies continue to show that these skills, which are also known as *Transferable Skills* or *Marketable Skills* are highly valued by employers.
