4. Select Server

Site Servers Version Co. Advanced Settings	A Dreamweaver site is a collection of all of the files and assets you use in your website. A Dreamweaver site usually has two parts: a local folder on your computer where you store and work on files, and a remote folder on a server where you post the same files to the web.		
	Here you'll select the local folder and a name for your Dreamweaver site.		
	Site Wallet		
	Local Site Folder: H:\Website\Pmamin\
