Agenda Item	Action Discussion Information	Responsibility
Opening/Introductions		Ma Emerson
Old Business:	Looked over and discussed made to Electronic Business (EBM) and Computer Information Systems (CIS) programs that were presented in the last meeting, 2002. Asked for any final questions. Discussion followed everyone seemed pleased with the revisions.	
Continuing Business	Industry members felt strong about including ASP, DHTML, XML, SOL in the curriculum because very much in demand in the web world. Faculty members assured the we have this in our program at this They also suggested there should programming course for web as well as some programming for them. Faculty members assured the we have this in our program at this There were also questions from the members regarding connecting with the web and what, if any, taught that. Faculty members assured the we have this in our program at this A suggested course was ASP.Net. Faculty members assured the we have this in our program at this Concern arose from the faculty difficulty of the course and that we needed to made sure the students the required prerequisites.	Advisory Committee
Curriculum Decisions:	It was decided to make a ASP.Net (ITSE 2302) as well as administer an assessment test to student.	EBM Faculty
Other Issues:	It was also discussed to offer courses	Advisory Committee

	alternately by semester to promote planning ahead by 2 years for the students as well as the faculty. It also help to handle budget policies per class requirement). The topic of internet courses was brought up because the encouraging every class to be the internet. Some courses are conducive to being taught online others are not. Coop students who have paid for a semester that count as a class discussed and the question was see if anyone in industry needed Entertainment needed someone Flash experience. Also, Service Learning surfaced a non-paid position for a student works so many hours in place of completing a classroom project.	
Adjournment:	The Chair, Ken Kercher, adiourned the meeting.
