Assessment Method	Use of Results

8.	What other methods could be used to assess student outcomes in the program
	more efficiently or effectively?

- 9. Specifically identify the <u>methods</u> used to determine to what extent program students attain the Basic Intellectual Competencies in the Core Curriculum and achieving the appropriate Core Area Exemplary Educational Objectives.
- 10. To what extent are program students attaining the Competencies and achieving the Objectives discussed in the previous question?
