Our Staff

From helping you start planning for proposed curricular revisions, to shepherding your proposals through CAB and submitting your requests to THECB, to producing the schedule of classes and catalog--our office plays a vital role as a resource for you in keeping your curriculum current. It is our hope that this site will simplify this process.

In addition, we are responsible for transfer programs for the district. We create and maintain articulation agreements, transfer guides, equivalency guides and concurrent admissions agreements with colleges and universities for the district. We also maintain Transfer Labs on each of our campuses, and coordinate Transfer Fairs / Expos in order to facilitate student transfer.

In the left menu bar you will find links to resources, as well as, links to the forms which we require you to use to request additions and changes to our curriculum, guidelines for submissions to our Metroplex Report, updates to the Catalog, the Schedule of Classes and the Faculty Resource Guide, guidelines for the addition of new programs and a list of firm deadline dates.

As always, we are seeking new ways to better meet your needs. Please do not hesitate to contact Vickie, Stephanie, Karen, Gloria or myself should you need assistance.

Leslie A. Cannon, MS
Director of Transfer Programs +
Assistant to the Vice President of Academic Affairs
