Mission

The mission of the Teaching/Learning Center is to serve as a source of support for Collin County Community College District professors who wish to enhance their ability to increase student learning. We hope to assist CCCCDC faculty by achieving three goals:

- Establish a venue whereby professors may communicate with their peers about their experiences with new ways of teaching.
- Provide access to very current instructional technologies and assist in their implementation.
- Communicate the latest research regarding the theory and practice of education.

News of the Site

- [Click here to find workshops offered to the faculty.](#)
- Besides the Teaching Learning Center (TLC) at D133/SCC, another TLC is established at A217/CPC. Faculty who wants to use the facility can get the key from the Provost's Office, A302. An instructional designer will be available on Monday and Thursday 1:00 pm - 4:30 pm.

Executive Director's Message

Opinions

What do faculty members think about TLC? Click on the images to view the video. The files are rather large, and they may take some time to stream or download.
