

Health Science Symposium Meeting Minutes

1/15/2026 @ 1630 – 1650.

We need dual credit teachers to get us the names of students for dual credit mentees ASAP. Marie will talk with HP about sending out another email. We feel more names will come in after the semester officially starts. Hoping to have all names by the end of January.

Should HSS be changed to the fall semester? Pros and cons?

Maybe we should start assignments to later this year. Instead of having assignments due at the beginning of February, we could push it back a week or two to give us time to get all the students in the Canvas shell.

Marie is working to simplify the assignments in the HSS canvas. We are moving to quiz assignments where students won't have to print anything out.

Kim G is the one who usually cleans up the HSS canvas. If she is not available, e-learning is an option; they have zoom sessions to ask for help. Marie will email Kim G and ask for guidance in clearing out the old students.

Marie will go into the HSS Canvas and make sure those on the HSS council have access to the course.

Seema has agreed to be the co-chair for the HSS. Roberta said she is willing to be a mentor to the HSS leadership and answer questions/assist where she can.

Should we have a meeting next week? No, let's have the next meeting in two weeks. Next meeting is 1/29/2025 at 1630. Marie will send out the zoom invite.
