

SERVICE UNIT NAME: Student Life Office

ACADEMIC YEAR: 2013-2014

SERVICE UNIT PROGRAM REVIEW

Questions regarding forms, calendars & due dates should be addressed to the Kathleen Fenton (ext. 3737) or Gordon Lin (ext. 3713) in the Institutional Effectiveness Office.

I. PROGRAM STATUS

- A. Describe how the program supports the college [mission and core values](#).
- "Collin College is a student and community-centered institution committed to developing skills, strengthening character, and challenging the intellect." A few specific examples of how the Student Life Office supports the college's mission statement are: 1) student leaders and student organization officers are offered training opportunities each year in various topics such as leadership skills, business office procedures, and safe travel; 2) programs such as the Knowledge is Power (KIP) Lecture Series, Community College Day, Constitution Day, Earth Day, Safe Relationships, Smart Money, and various other district-wide initiatives are supported and promoted by the Student Life Office; and 3) Collin College's faculty and staff members are encouraged to interact with students outside the classroom as student organization advisors. Collin College has "a passion for: Learning, Service and Involvement, Creativity and Innovation, Academic Excellence, Dignity and Respect, and Integrity." One specific example of how the Student Life Office supports these core values is through the support and promotion of the college's six (6) academic honor societies (i.e., Chi Alpha Epsilon, Kappa Delta Pi, National Technical Honor Society, Phi Theta Kappa, Psi Beta, and Sigma Kappa Delta). The Student Life Office also supports and promotes more than 60 student organizations including the American Sign Language (ASL) Club, Collin Health Information Management Association (CHIMA), Collin Math Club, Collin Nursing Students' Association (CNSA), Collin Robotics Club, OBSCURA Photo Club, Political Science Club/Mock Trial Team, Respiratory Care Club, Sleep Technology Club, Society of Women Engineers, Student Chapter American Dental Hygienists' Association (SCADHA), Student Animators Workshop (SAW), Students in Communication Association, Surgical Technology Student Organization (STSO), and Writers Bloc: The Collin Literary Society. The Student Life Office encourages students to attend local, state, and national conferences to learn about new methodologies and current issues in their various fields of study. Furthermore, the Student Life Office processes all of the paperwork that makes it possible for more than 600 students to volunteer more than 1800 service hours with more than 35 community partners annually. Additionally, the director of student life and the two (2) assistant directors of student life assist the Dean of Student Development (DOSD) Offices at their respective campuses with the investigation, management, and resolution of student disciplinary cases and files for

scholastic dishonesty (i.e., plagiarism, cheating, and collusion) cases.

- B. Program Literature: List all program literature (course schedules, student handbooks, flyers, brochures, catalog entries, etc.) and provide last date updated. All program literature must be reviewed and updated no earlier than three months prior to the program review due date.

C. Identify the unit's primary function(s).

The Student Life Office oversees all aspects of student organizations at Collin College. This includes processing student organization registration packets; processing all student organization event paperwork; processing student organization travel paperwork; and handling all publicity, marketing, and promotion for the student organizations. One of the Student Life Office's most important functions is to assist with the development, coordination, and marketing of district-wide events and activities (e.g., Annual Student Organization Reception, Earth Day, Knowledge is Power Series, Rockin' the Ridge, Spring Fest, Veterans' Day activities, Welcome Week activities, Wild West at the Park, etc.) as well as various district-wide diversity awareness programs (e.g., African-American History Month). The Student Life Office processes all Student Activity Fee Allocation Committee (SAFAC) requests and reimbursements, and ensures SAFAC is following Collin College policies and procedures as well as all State of Texas Education Code 54.503, 54.504, 54.511, 54.512, and 54.513 requirements. The Student Life Office also produces student identification (ID) cards and serves as the college district's "Lost and Found" at CPC, PRC, and SCC. Additionally, the Student Life Office posts student organization, campus, and community news items at CPC, PRC, and SCC, and processes performance contracts and contract labor forms. Furthermore, due to the large volume of student disciplinary cases being received in the Dean of Student Development (DOSD) Offices at each campus, the director of student life and the two (2) assistant directors of student life now assist the DOSD Offices at their respective campuses with the investigation, management, and resolution of student disciplinary cases and files for scholastic dishonesty (i.e., plagiarism, cheating, and collusion) cases.

Research how three peer colleges handle this unit's functions. Identify the colleges and describe the similarities, the differences and any practices that might be advantageous to Collin College.

Information was gathered from the following peer colleges: Portland Community College, San Jacinto College, Sierra College, Sinclair Community College, Tulsa Community College, William Rainey Harper College, Eastern Florida State College (formerly Brevard Community College), Central Piedmont Community College, Diablo Valley College, Mesa Community College, Oakland Community College, and Palm Beach Community College. See Appendix A for all information gained from each of these peer colleges.

The three (3) peer colleges chosen to compare to Collin College were: Sierra College, Mesa Community College, and Oakland Community College.

Although Sierra College's student population (22,000) is about half the size of Collin College's, Sierra College has approximately the same number of student organizations (60) as Collin College. One (1) or two (2) programs are sponsored

strictly by the Campus Life Office each month at Sierra College, but most programming is collaborative and relies very heavily on faculty involvement. Additionally, much like Collin College, the majority of Sierra College's Campus Life budget is generated through Student Activity Fees. Unlike Collin College, however, at Sierra College student organizations and clubs are only required to submit a Constitution once as long as they remain active on campus, and the Student Senate sponsors most of the events and activities held throughout the year. Also, Sierra College's Campus Life Office is directed by the Student Senate advisor, who is a current faculty member as well, and none of the Campus Life Office staff members handle student disciplinary cases. One practice that might be advantageous to Collin College is that Sierra College offers incentives for student organizations to register, such as requiring registration paperwork to be completed before rooms may be reserved or funds accessed. Another of Sierra College's practices that might be advantageous to Collin College is that student organizations and clubs can earn funds by attending the Inter-Club Council, which gives the students involved an opportunity to discuss what each student organization or club is currently doing, collaborate on projects and events, and find partnerships for co-hosting programs, events, and activities.

Although Mesa Community College's student population (40,000) is slightly less than Collin College's and there are fewer student organizations (45), Mesa Community College's Student Life Office serves as a resource for campus and community information, much like Collin College's Student Life Office. Additionally, like Collin College's programming, Mesa Community College's programming is academically linked and provided in collaboration with other departments on campus. However, at Mesa Community College, the Student Life Office has staff members who are specifically program coordinators for not only the Student Life Office but also the Leadership and Multicultural Affairs Offices; and the dean of student affairs, not Student Life Office staff members, handles student disciplinary cases. Also, unlike Collin College, Mesa Community College's Student Life Office hosts six (6) to eight (8) large-scale programs each year. Much like Sierra College, Mesa Community College offers incentives for student organizations to register in a timely manner, which might be an advantageous practice for Collin College to consider. Mesa Community College provides up to \$300 in funding per semester for student organizations who register on time, which can be used by the student organizations to host events with the purpose of recruiting new members and retaining their current members.

Although Oakland Community College has a much larger student population (81,000) than Collin College, the number of student organizations (42) remains comparable to Collin College's. Oakland Community College and Collin College also have very similar registration processes, policies, and procedures for student organizations; however, Oakland Community College requires student organizations to submit an end of year report containing information on their accomplishments, service performed, budget and expenditures, fundraising activities, etc. Unlike Collin College, at Oakland Community College each of the four (4) Student Life Offices is staffed by a single student development coordinator, and these staff members do handle disciplinary cases for the student organizations in addition to their other responsibilities. The Student Life Offices at Oakland Community College are responsible not only for student organizations and student center management, but also for leadership development, volunteerism, service learning support, and community and campus resources. Additionally,

programming at Oakland Community College consists of films, concerts, lectures, annual college-wide activities (e.g., Welcome Back Week, Health and Safety Awareness Activities), and a Student Life Speaker Series. Ongoing recognition for student organizations at Oakland Community College is dependent upon participation as outlined in the Student Life Office's requirements, and includes creating one (1) activity per year that is open to the entire student body, completing at least one (1) community service project per year, and submitting an end of year report. This may be an advantageous practice for Collin College to adopt, as it would encourage the student organizations to be more active; engage the entire student body as well as serve the local community; and force the student organizations to be more accountable for their annual activities, budgets, and expenditures.

II. INSTITUTIONAL DATA

A. Gather any relevant, available information for the unit. Possibilities include:

1. Student Satisfaction Surveys
 - a) IE Student Satisfaction Survey 2010 and 2012
 - b) Noel-Levitz Student Satisfaction Surveys
 - c) IE Faculty/Staff Satisfaction Surveys
2. IPEDS Data
3. Unit-level Data, if available
 - a) Audit Reports
 - b) Periodic Unit Reports for supervisory chain
 - c) Point-of-Service Unit Surveys
 - d) Number of delivered service units by function
 - e) Cycle or response time for service or product delivery completion
 - f) Number and types of complaints
 - g) Time to resolution of complaints by type

III. PROGRAM RESOURCES SINCE LAST PROGRAM REVIEW

A. Partnerships Resources: List all university/business and industry partnerships and describe them.

Table IV-A: Partnership Resources.

University/Business & Industry	Partnership Type	Special Requirements
Carter Blood Care	Premier Partners (as defined by Carter Blood Care)	Must obtain permission from the vice president/provosts (VPPs) to be on each campus and private facilities, as outlined by Carter Blood Care.
Center for Scholarly and Civic Engagement (CSCE)	College department with whom the Student Life Office frequently partners to provide district-wide programs and events. The Student Life Office also provides financial resources for these programs and events as necessary.	Not applicable
Counseling Services Office	Partner with the Counseling Services Office to coordinate and promote various district-wide events (e.g., Safe Spring Break).	Not applicable
African-American History Month	Partner with the African-American History Month Committee to coordinate and promote district-wide events to celebrate African-American History Month.	Not applicable
Annual Live Smart! Health and Safety Fair at CPC	Partner with the Health and Safety Fair Committee to coordinate, promote, and procure vendors for this annual event.	Not applicable

Book in Common	Partner with the Book in Common Committee to coordinate and promote this district-wide initiative.	Not applicable
Knowledge is Power (KIP) Lecture Series	Partner with the KIP faculty members to promote and procure refreshments for these bi-annual lectures.	Not applicable
Smart Money	Partner with the Financial Aid Office to coordinate and promote this initiative.	Not applicable
Veterans' Day Committee	Partner with the Veterans' Day Committee to plan and promote district-wide Veterans' Day celebration events.	Not applicable
Clery Act Committee	Partner with the Clery Act Committee to plan and promote various safety and awareness programs on campus. The Student Life Office provides giveaway items for these events.	Not applicable
Constitution Day Committee	Partner with the Constitution Day Committee to plan and promote Constitution Day programs and activities at all campuses. The Student Life Office provides financial resources as needed.	Not applicable
Earth Day Committee	Partner with the Earth Day Committee to plan and promote Earth Day programs and activities at all campuses. The Student Life Office provides financial resources as needed.	Not applicable

Student Government Association (SGA)/Center for Scholarly and Civic Engagement (CSCE)	Partner with both SGA and CSCE to plan and promote students attending the annual Community College Day in Austin, TX. The Student Life Office provides financial resources as needed.	Not applicable

If this trend continues, the amount of funds SAFAC has available to allocate for various student-centered events and activities will be insufficient to meet everyone's needs.	Additional funds can only be raised by: (1) releasing funds from the reserve and/or (2) increasing student activity fees.

IV. PROGRAM PLANNING

- A. Attach the unit's two most recent Continuous Improvement Plans (CIPs).
Student Life CIP - 05032011 (see Appendix C) and a CIP was not completed for the 2012-2013 academic year. A CIP was completed for the 2010-2011 academic year regarding the implementation of a new student identification (ID) card system; however, that document cannot be located at this time.
- B. Describe any additional continuous improvement activity not captured in the Continuous Improvement Plans.
 Not applicable or Describe here.

C. What data, situation or observation prompted the continuous improvement activity described in #2?

The Collin Educational Support/Programs Student Survey: Fall 2010, which was published in January 2011, indicated low ratings for satisfaction with the Student Life Office. Thus, the 2011-2012 CIP was intended to address and remedy this apparent weakness. Specifically, the 2011-2012 CIP was designed to improve the low ratings regarding student satisfaction with the courteousness of the Student Life Office staff members, the knowledge of the Student Life Office staff members, and students' overall satisfaction with the Student Life Office.

D. Use the Institutional and Unit Data and Resources to respond to the following questions.

1. Strengths: What strengths can this unit build on in the near future?

Data collected from various student surveys indicates that the majority of students who were aware of and used the Student Life Office's services felt the hours were convenient, service was provided in a timely manner, and the staff were courteous and knowledgeable. Overall, the majority of these students were either "satisfied" or "very satisfied" with the Student Life Office's programs and services. Data collected from various faculty and staff member surveys indicates that the majority of faculty and staff members who were aware of and used the Student Life Office's services felt the procedures were user-friendly, efficient, and met their needs in a timely manner. Additionally, these faculty and staff members felt the Student Life Office's staff were courteous and knowledgeable. Overall, the majority of these faculty and staff members were either "satisfied" or "very satisfied" with the Student Life Office's procedures and services. The Student Life Office offers viable, quality programming for students that is produced in collaboration with Collin College's faculty and staff members. The Student Life Office should continue to build on this strength by looking for additional ways to support faculty members outside the classroom as well as ways to support staff members in their efforts to increase student retention and overall student success. Additionally, the Student Life Office staff members are able to recognize potential problems and work quickly to find solutions and correct any problems or issues that do arise during events. All Student Life Office staff members, including student assistants, step up to assist with every event, which helps to ensure these events and activities run smoothly and are as successful as possible.

2. Weaknesses: What unit weaknesses must be addressed in the near future?

Data collected from various surveys indicates students, faculty, and staff are not aware of the multiple services offered by the Student Life Office or the opportunities presented by the college's various student organizations. Students, faculty, and staff simply do not know what the Student Life Office does, which appears to play a large role in their dissatisfaction ratings on these surveys. The Student Life Office needs to do a better job in the future of marketing and branding events and activities to make students, faculty, and staff more aware of what is going on; get students more involved and engaged on campus; and also to ensure students, faculty, and staff know the Student Life Office's purpose and role on campus. The Student Government Association (SGA), in conjunction with the

Student Life Office, can facilitate the marketing and branding for the student organizations and assist with promoting the various events and activities held throughout the academic year. Some ways to increase publicity include sending text messages to interested students with information about events and student organizations, better utilizing social media outlets, and putting information on the television screens located in the public/common areas at each campus. With regard to low ratings on the courteousness of the Student Life Office staff members, student assistants are normally the first people students, faculty, staff, and community members encounter when they walk into the Student Life Offices at each campus. Thus, it is important to do a better job of preparing the front line student assistants by providing them with ongoing training, including customer service training, in addition to the end-of-semester evaluations currently in place. The full-time Student Life Office staff members are knowledgeable in many areas; however, the student assistants are not as informed and need to be trained to use multiple campus resources, including the college's website, to direct students and community members to the proper office(s) and ensure they are receiving correct information. One of the Student Life Office's greatest weaknesses is the inability to conduct online training for student organization officers and advisors, which prevents new officers and advisors from meeting the mandatory training requirement in a timely manner. Having a true online training program would alleviate this delay and ensure the officers and advisors are following the proper policies and procedures from the start of each semester. The Student Life Office produces large amounts of student organization paperwork that include, but are not limited to, registration forms, financial documents and receipts, activity approval forms, and SAFAC requests and approvals. It is essential that an automated process be implemented in order to more effectively and efficiently process and keep track of the volume of paperwork currently being generated. Implementation of a software system that would, at a minimum, allow student organization registration paperwork to be processed online would reduce the lag time for student organizations to officially become recognized, and would also streamline the activity approval process. The Student Life Office is a department consisting of only six (6) full-time staff members who are all very specialized in their job duties and skills. Sometimes, when a staff member is out of the office, the other staff members' lack of knowledge of that person's responsibilities can be a hindrance and cause a delay in accomplishing various tasks. Cross-training of staff members as well as effective communication and consistency in job responsibilities may be ways to resolve this issue. Additionally, it may be possible to redistribute responsibilities among the full-time staff members in order to ensure that no single staff member is being overworked or relied on too heavily, and to prevent delays when a staff member is out of the office. One manner in which this is already being accomplished is through the implementation of an "event lead" and "assistant event lead" for every event. This will assist with the preparation for events, including paperwork processing and setup, and will help to ensure that all of the responsibilities and tasks involved in running events will not fall to a single staff member. Another weakness is the lack of adequate work space for the student organizations within the Student Life Offices at CPC and PRC. At this point, there is no satisfactory way to resolve this problem; however, once CPC and PRC are built out and additional classroom buildings are added, the Student Life Office may be able to relocate to a larger area and/or acquire a

larger work space for the student organizations at these campuses. Finally, the Student Activity Fee Allocation Committee (SAFAC) budget is currently being stretched to its limits. If requests for SAFAC funds continue to increase, as has been the trend in recent years, the SAFAC budget will not be adequate to cover all of the needs and requests. The only resolution to this problem at this time is to encourage the student organizations to fundraise more effectively so they can assist with paying for events, trips, conferences, etc. without having to rely so heavily on SAFAC funding.

3. What are the perceived consequences if the weakness(es) is(are) not addressed?

If the aforementioned weaknesses are not addressed, the Student Life Office may not receive enough Student Activity Fee Allocation Committee (SAFAC) Auxiliary Budget to fund all of the programs that are currently being offered, and SAFAC funds will not be enough to cover all requests for funding. Any loss of funding will have a large impact on student travel, as the district will no longer be able to afford to send students to the many off-campus conferences and activities they currently attend. Additionally, student organizations and activities will be greatly impacted by any loss of funding, as there will no longer be enough money to meet all needs and requests for funding and student organization activities. This will lead to decreased student participation in activities, and could also lead to loss of student organizations due to their inability to function without the necessary funding. Research has shown that engaged and involved students become successful students who remain at colleges and fulfill their academic goals. Therefore, attrition of student organizations and activities will eventually result in fewer engaged students, and may also lead to an overall loss of students due to lack of opportunities to become involved on campus. In a worst case scenario, this could negatively impact Collin College's overall retention and graduation rates, resulting in a loss of funding from the state, budget cuts, and reductions in numbers of staff employed across the district.

4. Threats and Opportunities: Describe any forecasted trends or changes in the following areas and the ways in which the committee thinks they may impact the way this unit functions five to ten years from now:

- legal
- educational
- environmental
- political
- technological
- social
- demographic
- economic
- cultural

The Student Life Office's programs will continue to be of educational value to students in the coming years. However, it is essential to create and promote additional programming in collaboration with faculty members and other offices on campus in order to continue to engage students; increase their participation in student organizations, events, and

activities both on- and off-campus; and meet the evolving needs and demands of the entire student body. For example, given the rapidly rising cost of textbooks, students will continue to need assistance paying for these items along with other school supplies. It may be possible for the Student Life Office to partner with other offices or departments on campus to create a new event that would help students offset the cost of textbooks and other school supplies. As legal and liability concerns become increasingly important to colleges, it is inevitable that these types of issues will impact the Student Life Office at Collin College. Student organizations travel extensively, volunteer with minors, are active in the community, and perform various other functions that have the potential to put students, student organizations, and Collin College at risk. As participation in these activities continues and increases in the future, it will be necessary to make adjustments to procedures in order to protect all parties from legal and liability concerns. It is essential that the Student Life Office find ways to incorporate current technology into its daily processes in order to more effectively and efficiently meet all students' and student organizations' needs and demands. At this time, all of the Student Life Office's and student organizations' paperwork is processed manually with paper and pen; however, current technology allows for faster and more efficient processing of these documents. Additionally, research shows that this technology has become more affordable. Therefore, Collin College will need to purchase a software program to manage paperwork processes for the Student Life Office and student organizations within the next 12 to 18 months. This will allow for more efficient processing of all documents, which will in turn allow the Student Life Office's staff members to redirect some of their efforts from processing paperwork to focus on other projects and activities. Furthermore, this will lower the Student Life Office's carbon footprint by requiring less paper and reducing the necessity to print documents and forms.

E. Summarize expectations and general plans for the next five years.

The Student Life Office will continue to offer viable, quality programming for students that is produced in collaboration with Collin College's faculty and staff members. Additionally, the Student Life Office will secure an online data management software system to facilitate, streamline, and manage the processing of student organization registration paperwork, the activity approval process, and other current paper processes. Ideally, a new online data management software system will also allow the Student Life Office to develop and offer adequate online training opportunities for student organization officers and advisors. Additionally, a "real time" application such as a new online data management software system will provide student organization officers and advisors with updated and current information (e.g., up-to-date member rosters) that can easily be accessed from their smartphones, tablets, and other mobile devices. The Student Life Office will also develop ongoing training procedures for the office's student assistants, specifically with regard to the procedures for student organizations and information contained in the Student Organization Procedures Manual (SOPM). These ongoing training procedures will allow the office's student assistants to be more helpful and consistent when answering questions and responding to concerns regarding student organizations. The Student Life

Office will also seek out and offer appropriate customer service-oriented training for all full-time staff, part-time staff, and student assistants. Furthermore, with the assistance and approval of the Public Relations (PR) Department, the Student Life Office will do a more effective job of branding programming in which they are involved either as the primary facilitator or as a co-facilitator, and will develop a comprehensive marketing plan for the Student Life Office as well as the student organizations.

- F. Attach the next Continuous Improvement Plan that will be implemented the academic year following this Program Review. Student Life_CIP_2014-2015 (see Appendix D)

Use the available data and any Program Review Committee conclusions to justify/support the new action plan. Scores on the Collin Educational Support/Programs (CESP) Student and Faculty Surveys indicating awareness of the Student Life Office were not as high as desired. Thus, it was decided that the next Continuous Improvement Plan (CIP) should focus on increasing students', faculty members', and staff members' awareness of the programs, events, activities, and services offered by the Student Life Office. Additionally, the current pen and paper system for receiving and processing student organizations' registration, meetings, and events paperwork is extremely cumbersome and results in a large volume of paperwork that must be processed by hand. This can lead to inefficiencies, errors, and delays in properly processing all of the paperwork, which can greatly affect the student organizations' ability to hold meetings, sponsor events, fundraise, etc. It is imperative that this process be streamlined, and the best way to do that is through the purchasing and implementation of a new district-wide student organization data management software system. Finally, the current system that is being used to produce student identification (ID) cards is outdated and does not provide as much functionality as many of the newer systems that are now available. Therefore, it is very important that the functionality of the current student ID card system be improved, and the most feasible way to do this is through the purchasing and implementation of a new student ID card software package.

- G. Under ideal circumstances, how might this unit move the college forward in terms of effectiveness, efficiency or customer satisfaction?

By focusing on increasing students', faculty members', and staff members' awareness of the programs, events, activities, and services offered, the Student Life Office will raise satisfaction ratings, as well as awareness of and participation in these services and programs. By eliminating the inefficiencies, errors, and delays caused by the current pen and paper system with a new automated online data management software system, the Student Life Office will enable student organizations to function more effectively and efficiently. By eliminating the large volume of paperwork that is currently processed by hand, the Student Life Office's staff resources can be redirected to creating student assistant training, student organization leadership opportunities, and new collaborations with other offices and departments, among other

initiatives. A new online data management software system also has the potential to be utilized by other departments (e.g., Center for Scholarly and Civic Engagement, New Student Orientation) to facilitate programming, events, and training district-wide. With the purchase of a new student identification (ID) card system, the process for producing student ID cards will become more efficient, and it will also be possible to track students' use of various campus facilities and resources (e.g., athletic facilities, computer labs, events, programs, games) when they swipe their ID cards. This will allow for better data collection, and will also give the Student Life Office the ability to print lists of students who use the college's facilities and attend the many events and programs held district-wide each year. Additionally, a new student ID card system will offer better quality, higher resolution photos that can be utilized by the Collin College Police Department and the Dean of Student Development (DOSD) Office to identify students.

V. PROGRAM REVIEW REPORT PATHWAY:

Completed Program Review Reports will be evaluated by the appropriate deans and Program Review Steering Committees. Following approval by the Steering Committee, Program Review Reports will be evaluated by the Leadership Team who will approve the reports for posting on the intranet. At any point prior to Intranet posting, reports may be sent back for additional development.

dont get me started on hell week	1
during registration period, on hold for 20 min and then put on hold another 10 min. unacceptable	1
Easy to register, yet annoying.	1
getting any advise from the advising center at this campus.	1
Just as bad as admissions	1
Long lines, waiting for hours.	1
My only complaint is that it would have been nice to know if I did not take a class the semester I thought I would, that I would have to complete the entire process again.	1
nice	1
Not a very user friendly format for registering by computer, hate having to go back to begining and always scroll down to course prefix. it is very time consuming and akward way of registering.	1
OK as long as it is online registration	1
Refer to one. And I am paying the repercussions of her insolence now.	1
Similar confusion as CougarWeb.	1
simple	1
This semester has been my first experience with Collin County Community College, and the entire process surpassed all expectations. I guess I expected a lower-level institution to have staff who were very passive in their responsibilities, etc. but this was definitely not the situation whatsoever. In fact, I'm so impressed with Collin College I plan to enroll for spring term provided this does not interfere with my program with graduate at UTD Yes, graduate student who chose to take Math [course number] and BCIS [course number] at Collin this semester before returning to UTD and my experience has been great. In fact, my Math [course number] instructor, [professor name], has become my favorite instructor of all time at Collin College, which surprised me since my sociology professor from 1988 had remained my favorite instructor of all time until sitting in Professor [professor name] class.	1
To me, Admissions and Records is the same as Registration. It's the same desk, no?	1
When it gets busy, people get mean and crabby	1

[Individual name] is wonderful!	1
like the concept, but hard to find someone to help over there, plus cougar den is WAY TOO NOISY, Needs to have some carpeting or sound proofing, There are times when you can't even have a conversation over lunch because the tv is blaring, or the kids playing pool or ping pong are being very obnoxious. If there are going to be gaming areas, they should have a larger	
area. People are always getting hit with pingpong balls, and pool sticks while trying to walk by to the gym area	1
They didn't have enough information about the In-service learning program, and I had to call my-self to do it. I think they should also know it.	1
Very helpful	1

Always registered online.	1
did online	1
didn't need to.	1
didn't really need to access except for at the beginning of the semester	1
Have done all my registration online.	1
i could not find the office.	1
I don't remember ever using it.	1
I guess I used this at the beginning, but it's been awhile. No complaints or problems when I did.	1
I have used online registration instead.	1
I haven't used it in 2 1/2 years. The campus was under construction then, and the waiting lines and hassels were very irritating. Since then it has improved, as I have helped friends register. I thought my opinions on it would be unusual and outdated.	1
I only register before fall semester and spring semester begins.	1
I register online.	1
i registered myself online bc in the past people have told me wrong things	1
I registered online so I didn't need to go in person.	2
I registered online.	1
I use online registration.	1
I used just onbce and wont need them the rest of the semester my dad did	1
no need to go to registration	1
Register online	2
registered online	1
This is difficult to use	1

I realize that there is limited staff to handle Post 9/11 G.I. Bill claims but in my opinion it took too long to certify my classes for the past two semesters. I appreciate the fact that Collin College will wait for payments from the Veterans Administration but the longer it takes to certify the classes that a veteran enrolls in, the longer we have to wait for other entitlements that some of us rely on.

I think advising should be better organized. If it is, then I am unaware of it. I don't like the fact that everytime I go to advising I am speaking to a different person. I understand that there are a lot of students, but I believe there should be a better way of getting the same person without having to wait until they open up. Some of them don't seem to care as much as others and move very slowly, especially when it's busy. I understand that the beginning of a semester is very busy and they've been working long, hard days, but we don't want to be standing in line for hours, just as much as they don't want to be sitting in a seat for hours. With any business or job, the harder that it appears you are working to help someone, the more people are going to think you actually care, and are there for their benefit.

I think that it's great that you guys provide students the opportunity to give feedback on all of the programs at Collin. It's really important for students to know that their voice is being heard. So thanks, and keep up the great work :)

I think that students would like to have their transcripts evaluated on time.

I think the Financial Aid team needs to be more courteous and more motivated towards its clients. I personally had a negative impression when everytime you go there and they tell you that's "IN PROGRESS" when its been like about 8 months or so. Or when you have already recieved your package but you were unaware of it... shouldn't it be the Financil Aid Departments responsibility to let us know via e-mail or something that you have now recieved it and if you have any further questions to come and talk to them rather than you going there and them acting like that you should have already known this.

I think the library could open longer so that student would get more time to study. And the corporate program. I am really interested in, but I do not know how to get involved. If the Mentor program meeting was on campus that would be so much better!

I was hoping this would be a survey regarding my opinion of the education I've gotten at Collin. While a couple of my professors were EXCELLENT, and I really (still) enjoy the field of study (Paralegal/Legal Aid), I'd have to say I've been pretty disappointed. Several of my professors were often unprepared to teach, and my last professor was a very poor lecturer, though I have nothing against him/her personally. However, the most disappointing thing about it has been the awareness that students whose work is very sub-par continue to pass these classes. Some students in my classes cannot even write well, and in the class I just completed, most could not at all represent the subject matter that we'd spent most of the semester learning; yet the professor announced just prior to the final that the lowest grade in the class to that point was an 88%.

I would like to praise the excellent staff at the library. In particular, Collin and April (whose last names I am sadly unaware of) have been utterly fabulous in helping me find the books and information I need. Collin goes even further, and if the library does not have what I need, he finds it elsewhere and points me towards it. It is always a pleasure going to the library. Very good form!

I would suggest advertising resources like the math lab and tutoring services to students a bit more, so they would not only want to use it more, but also just so they have the information. I know for me, in this survey I

saw several things that I didn't really know a lot about, and I'm generally pretty observant. Other than that, great job.

If Collin College is trying to put themselves in the bracket as a 4-year school I think it would be beneficial to have later library hours. Just a thought; maybe it could be looked into. Students could use this a second or part time job at night. I could be your first applicant for the late shift. :)

in jennil the school is doing whell.

Library needs to up the limit for books. Material requested from other campuses sent back too quickly.

Love the college. I wish it were four years because the Higher Education Center doesn't provide what I am looking for (History major transferring to UNT, originally transferring to TWU but I like the UNT history department better) and I don't want to drive to Denton everyday. :)

[individual name] needs to be recognized for all he does to promote and excite student learning! His passion for higher education ignites the fire in all who take the time to talk education with him. Kudos to you Professor [individual name] ! Also, [individual name] in the Student Life needs to be recognized for her helpfulness and knowledge. What advising and financial aid did not help me with, she did. Thank you [individual name] . We should have awards for these people. There should be surveys such as this with people who sign into the system for advising or financial aid. This way there is feedback on the experience since those departments require attention. These two departments are the lifeline of Collin College for current and new students! I almost did not continue because of the lack of their care and help. Thank you for allowing me to give you my feedback. I do hope this reaches someone unlike my comments left on cougarweb financial aid site. Does anyone EVER read those?

Need a more helpful advising department at the Preston Ridge Campus. Especially for nursing majors.

generally disinterested in helping	1
Great support with directing me for activities	1
I have met some very helpful people behind the desk, and some very rude, self involved people. Pretending to be looking for the answer to my question while you browse Facebook is unprofessional	1
I have never accomplished anything there.	1
I participated in one of the functions with Student life (Veteran's Day Appreciation). I am a member of the Phi Theta Kappa and was looking for the sheet that I was to sign in with; however, I was unable to find it. Needless to say, I believe the Student Life Center reaches out to encourage students and they are always so new posting on the Cougar Web that is interesting and fun!	1
longer hours for night students	1
Never had a problem.	1
Only went there once to get my ID card, but it was pretty quick and easy.	1
Rude and unfriendly student employees. Don't allow access to full time employees when requested.	1
Some of the staff are very rude and unpleasent.	1
Staff were present but only marginally friendly and helpful.	1
Student Life overall is fine, but the Food Services is terrible, food is over priced, not good, and staff plays radio so loud the people can't study out at the tables.	1
The students that are hired there never seem to actually know about the subjects I tend to go in about. other than getting a student ID card, their answers are more like "oh, I think you can talk to advising about it" or "you can check the website"	1
too oriented toward student play-time, whereas some of us are actually there for an education	1
Took three tries to get a usable ID, and because I didn't notice the crappy pictue right away I was charged a fee to correct it.	1

I attend the CHEC and I want to say how clean that building way is. It makes me very proud to be able to use that building. I would however, like to recommend getting outdoor parking lot lights for the Northside of the CHEC. Taking night classes there, it's scary going to your car at night because there is no lighting.	1
I believe the dates were supposed to say 2011 or 2012, I wasn't here in 2010 but thought it was just a mistake so I marked that I was. Good idea to have this survey. It would be nice if someone from financial aid would sit with you and tell you step by step exactly what you must do. So hard over the phone- same with registration. Would be nice if you could register (especially the first time) in person. I did not realize for quite a while that career services existed- maybe advertise it more because it was very helpful.	1
I feel that the advising staff is incompetent, rude, unhelpful, and rarely ever know what they are talking about. I never wanted to waste my time "getting help" from advising because they never knew what to do and I often got wrong information.	1
I find it a little scary to walk through the Spring Creek atrium and cafeteria. A trip through the central hub of Spring Creek would discourage me from ever donating to the system. This is supposed to be an environment of higher learning, not a corner in the 'hood. Perhaps "Student Life" should engage in elevating the campus culture to that of a college.	1
I find that there are many programs I could use, but know nothing about. Cougar web is cumbersome and hard to find information in.	1
I have been at the Preston Ridge campus for 2011/2012 enrollment. I prefer the Spring Creek campus. The layout of PR is much less student friendly than SC. While PR is setup to resemble a university campus, SC provides a more student friendly environment.	1
I have enjoyed my time at Collin except for a few bumps along the way. I plan on transferring up to the McKinney Higher Education Center to complete my BOS with TWU.	1
I have enjoyed my time at Collin. One a whole, it is very well run. I think that many professors as well as fellow students frown down upon "non-traditional" students, which is interesting since our effort of work is typically higher than the younger student.	1
I have had a great experience at Collin College so far! The only problem I have ever encountered is Collin's advisors not being helpful at all.	1
I have really enjoyed my time at Collin College. I will be graduating this semester and will be proud to be alumni. My teachers have been phenomenal. They have supported me in all of my academic endeavors. I could not have completed my AA without their help.	1
I like this college.	1
I love everything about this school but the advising is a real pain sometimes! Waiting 30mins to an hour (i don't mind waiting) for the adviser to give you information that has nothing to do with your degree plan. One adviser was so unemotional that I felt dumb about asking her a question, I guess it's more lack of compassion. Every time I go into advisory office I come in with an open mind and open heart but I leave the office still confused. However, there is one lady that is brilliant but fate lets me get her every blue moon! Other than that AMAZING STAFF!	1
I really enjoy attending Collin - thanks for all you do and offer!	1
I really enjoy Collin college. It was a good experience for me. Class 2012	1
I really like the way Collin handles advising and admissions. I also like CougarWeb's functionality. I've dealt with a lot of other colleges and Collin's staff and process is top notch.	1
I really think that the math labs for the developmental classes should be extended to the weekends especially for Sewell's class. It is ridiculous to think that with the cost of gas unemployed people who have returned to college to complete a degree or earn one can afford this constant trek back and forth. Weekends should be included as well as more evening labs.	1
I really wish the advisers didn't suck so hard. I really need some LEGIT advice about how to go about switching from a degree in teaching HS Math, to getting a Major in Math and a Minor in either History or Science...something I enjoy...So that if/when they cut teaching jobs again, I can have a job in another field in the blink of an eye. Not to mention, I've TOLD THEM EVERY TIME I'VE GONE, THAT I WORRY THAT I WILL LOSE MY JOB DUE TO MY OPINIONS AND MY LOUD MOUTH (it's not the kids, it's the system, the state testing, the bs that teachers are limited in, or required to do that is utter BS). I have considered being a mechanical engineer. Yet, the "best" advice I've gotten is to still do all my math electives. Well, duh. But the best I can guess is to major in math. that will cover me either way. I don't know where to go from there. I feel that they know how to go dig me up a piece of paper and shoo me out the door. The fact they get paid for that and get the title of "college adviser" sucks. They should be called "reverse file clerks", since they can go find a piece of paper in a filing system and hand it to me. Yes, it is irritating.	1
I think it would be nice of the campus would provide a level field for archery class. It's a wonderful physical education class, but the sloping/flood plain field(ditch) that we are currently using at Spring Creek Campus is extremely inhospitable to beginner archers.	1
I think that we need more restaurants in the campus.	1

I think the school, as a whole, should have more activities that involve the student body. It doesn't seem to me like there is a unity among the students, and although this isn't a university, I believe everyone would like to have the sense of school spirit, and an easier opportunity to meet new people. Besides basketball and tennis games, it doesn't seem like there are any other opportunities for the whole school to come together.	1
I wish Collin offered a Bachelor's Degree that was not tied to and complicated by other Universities. I have had a great experience and actually will have my AA in May 2012 after 15 years of trying to graduate. I will miss going to Collin!	1
I wish there was a wider range of classes offered during the MayMester and more time slots available particularly for sciences over the summer semesters so that I could take more classes, without every possible option having a time conflict that prevents registration.	1
I would assume you meant for the previous questions to be answered in regards to the Spring 2012 semester, instead of Fall 2010? My answers reflect the correct Spring semester. I attend one class at SCC and one at PRC. SCC is in dire need of additional parking. For the working student as myself who travels from work on the Plano/Carrollton border to SCC, I do not have 15+ minutes to locate and hunt down a parking spot in addition to driving to campus and making it to the classroom on time.	1
I would like for somebody to take the time to optimize the collin.edu webpage. Somehow, I think the way it is written (scripts or something) is slowing down the site a LOT. I know several people who are professional web programmers, and I have studied quite a bit of web programming, and we all have decided the site is unreasonably slow. I also think that Blackboard needs to be more of an official online access suite. Many of my teachers either refuse to use blackboard, or don't know how to use blackboard, even when there is some online material required for the course. It is also extremely slow. This could be, in part, due to latency or slow servers, but I think that there is a way to fix these problems, regardless of that fact. I understand that it is highly unlikely that you will read this, but if you do, please take what I've said into consideration. Thanks if you've managed to get through this.	1
I would like to have information about certain professors before starting classes. I have had problems with certain professors and it was too late to withdraw. Money was lost and grades.	1
I would like to see a single unit gender neutral restroom available for transgendered students on campus. This would also serve as an additional handicap restroom.	1
I would like to the writing center have more time opened.	1
I would really like to see the science den at the mckinney campus improved since this is the main health care campus.	1
If this is a survey for Spring 2012, why are there questions regarding my status, etc. regarding Fall 2010? If that is the time frame intended with those questions, there should be a space to mark "not enrolled at that time."	1
if you want more specific ideas that could help student better please get a hold of me mdavies1@collin Just so you know i dont care if you know who I am.	1
In the Spring of 2012 my primary campus was spring creek which was what I used to fill out the survey. I am a full time student this semester who is also working part time.	1
It would be beneficial for students to know exactly what the details (exactly what kind of projects and how many papers or activities) of a class is before they register, since students may only drop six classes in Texas in total. If they work-load is too great, but the student had no idea till after the class started (or before the class started and dropped the class), it is not fair to disallow him to get a strike on his record because he had to cancel the class. Having a thoroughly-explained syllabus/curriculum before signing up for a class will help in preparing for the class and can help a student succeed more than when he blindly enters a class and is expected to do what he can, even if it costs him his grade. Thanks for the survey.	1
It would be so nice if people could answer the question that are ask of them. It seem there could be a lack of focus on many levels.	1
Library staff are immensely helpful, knowledgeable, and are an asset to Collin College!!	1
Live long and prosper. ^*_*^	1
Love collin college, maybe more books on supernatural in cpc library.	1
More direct help when it comes to advising students.	1
Most of the dates on this survey dealt with 2010	1
Most problems I see are staffing levels. It is very difficult to get into the Writing Center and the admissions staff is usually only 1 to help the line and 1 to help the phone. That is very frustrating when we are trying to get issues handles so we can then register for classes.	1
My encounters with service/support staff at Spring Creek Campus are positive. The staff at SCC are friendly, knowledgeable, and helpful. On one occasion, I felt I should have gotten a little more guidance from Advising.	1

Wireless internet is horrible and often will not connect throughout the building. If students have serious issues, the red tape required for them to talk to anybody is nonsense, where each person seems to not communicate at all with the previous person to have some sense of cohesion, nothing seems to happen upon meeting with several people, and no one responds or updates students to their concerns. Students are leaving this college and going to other ones because of these administrative issues that remain unaddressed.	1
Wish there is a weekend nursing program	1
Would like see a healthy alternative to the curly fries at same price and amount of food when money is short all I can afford to eat is the curly fries which are very unhealthy so often I don't eat them but can't afford the healthier choices so would be nice to see healthier alternatives at some reasonable prices	1
Yaaaay! Survey. The botany classes aren't running anymore, this is very sad. The greenhouse at SC hasn't been operational in a long time, this is sad too. All new students should be required to attend orientations for their chosen major 'and' each semester to evaluate classes and keep them on track if possible. I'm graduating in May 2012 and I still have no blessed idea if what I'm doing is right. I never attended an orientation and didn't find out they existed until my third semester at SC Campus. I know information is online and in various offices, but I would have appreciated a big welcome packet of some kind when I started classes in 2009. Something written not as a list, like the catalogs, but as lengthy explanations of available services and possibilities... such as... bus routes, orientations and why they're important, the cafeteria, student life, information on all school offices in a handy carryable student resource. Instead it's all over the place or hidden in some arcane catalog. Also, what about coupons or discounts for high GPA students? Something like, cafeteria food, or cheap toys that say "good job?" Tacky, maybe... but a nice reminder too. And why is registration open to all students by hours and not GPA? High GPA students are much, much less likely to drop classes... so why not let us register before anyone else after about 40hrs completed? I can't tell you how many times I've tried to register for classes only to have them fill up before I could... and then HALF of the students in the room drop out by midterms, but by then it's too late for me to get in. Very frustrating. My effort and good grade should have some visible benefits to the school, but it doesn't.	1

100% student focused. Always willing to help and go the extra mile.	1
A great place for students to eat and relax after and before classes	1
A ton of money & a pound of ideas	1
A wonderful department to partner with	1
Always cheerful and helpful. New office at CPC is really nice.	1
always fun	1
Always helpful and friendly	1
Always helpful.	1
Always polite, efficient & responsive; student emps need more training on College	1
Because every person I've met is/was friendly & if they did not know what one needed they would try to help you.	1
Can't figure out what it does. Must be important, though.	1
could provide more activities for students to meet and feel a part of the college	1
CPC staff are very helpful	1
Do a good job in activities and ID cards	1
[Individual Names] are wonderful!	1
[Individual Name] excellent - fantastic to work with. Other staff at PRC has not always been especially helpful.	1
[Individual Name] is wonderful. She is in a job that really matches her strengths.	1
Dynamic and engaged with students and faculty	1
easy to talk to	1
efficient	1
Every single person does a great job down to the student workers.	1
Excellent	2
Excellent Customer Service	1
Fantastic attitudes and very helpful ([Individual Name])	1
Good experiences, very good overall.	1
good resource, but some staff are hard to reach	1
Good service - thanks [Individual Name] O!	1
Great department- encourages student involvement and leadership	1
Great service, knowledgeable staff	1
great staff	1
Great staff	1
Great staff. This needs to grow because they have outgrown space. The new file cabinets are not conducive to maintaining files so advisor's offices absorb need for better filing cabinets. The new building's central theme should be Student Life as the center with each organization given cubicle and meeting room area and larger centralized meeting areas. A "Community is our middle name" theme could be utilized where students could interact in a larger scale to meet the economic, social, and environmental needs of our local and global community.	1
great support system	1
Have always handled questions problems efficiently	1
have not used service	1
helpful	1
Helpful	1
helpful and friendly staff	1
Helpful during last year's Associate Faculty Conference	1
Helpful to students, and they remember to call us if ID machine is down	1
helpful with student organizations	1
Helpful.	1
I'm not sure they did what I needed from them	1
I get what I need in a timely manner.	1
I had a great experience with Student Life. It lead me to other avenues and opportunities. The staff was very courteous, welcoming and knowledgeable. Although I am no longer a student, we still maintain a warm friendship.	1
I like the way they program with faculty	1

I obtained my faculty ID from this department. Staff was courteous and efficient.	1
I work there	1
knowledge and assistance	1
Level of courtesy and knowledge depends on who is at the front desk.	1
Like the opportunities offered to students through this office	1
lost and found is very organized	1
[Individual Name] is an exceptional person to work with!	1
Mostly, I refer students to this office and they have been consistently helpful.	1
My interaction with this area has been positive	1
N/a	1
Need to be more proactive in student programs at prc	1
nice and quick service	1
No complaints	1
Not helpful for anything unless it is a student club.	1
Offer a balanced variety of offerings to students and encourage faculty to participate as volunteers.	1
often poor attitudes	1
ok	1
PRC - we need some work here. papers get lost, office not friendly to me or my students. Do not help support student orgs -everyone seems to have problems with them in my org. I always have to goto SCC to get support. [Individual Names] are a great help. The staff at PRC need work.	1
Reliable and consistently involved staff. Very crucial to a positive student environment at Collin.	1
Seem preoccupied by the computer, less interested in patrons needs. Also, had a few issues with mishandling/organizing lost items.	1
service	1
Slow, disarticulated and unfriendly	1
Sometimes hours are not sufficient. Provides support for student projects.	1
Staff always helpful	1
Staff are excellent; yearly training, as manifested by the state, is ridiculous	1
Staff are great; student assistants are perhaps a little less than professional at times. But overall these folks do an amazing job.	1
Staff at CPC are knowledgeable and helpful. Great resource for faculty and staff!	1
Staff helpful, fun activities needed for students	1
student assistants don't seem to care.	1
Student Life doesn't really act like other programs at other institutions. I'm not really sure what they do, to be honest.	1
Student life is Fantastic! We just love the energy that [Individual Name] puts out.. She is a breathe of sunshine!	1
System for posting signs could be improved and streamlined. Seems that there are many students and staff who are not always busy.	1
The staff are so friendly and wonderful to be around.	1
they always help me	1
they are trying	1
They have been helpful in placing informational posters and picking up lost and found items.	1
They have been very supportive of campus initiatives.	1
They provide the service they should	1
They remember our campus & try to connect with our students.	1
They work very hard to assist their students	1
They work well with the students.	1
Too many student assistants with improper training and incomplete knowledge of what is required to get a student ID or a library card.	1
too overloaded with paperwork; certain individuals are very unfriendly & difficult to work with (for students & faculty) - [Individual Name] is WONDERFUL!	1
Usually great, need between semester access to student id's	1
Very active and engaged leaders	1
Very fiendly staff	1
very friendly and willing to help	1

Very friendly staff. Handles all lost and found items in our area.	1
Very helpful to my students.	1
Very helpful to students	1
What they do is great, can do more.	1
While the full-time staff are knowledgeable and efficient, their student staff are not always so motivated.	1
Why is the [Personal Identifier] always MIA? Why can't support staff answer questions?	1
Wonderful resources for students	1
Wonderful Staff & Customer Service	1
