## UNIT STAKEHOLDER RESOURCES AND PARTNERSHIPS TABLE

| Stakeholder             | Type of Relationship | Formal Agreement Duration, If Any | How Is It Valuable to the Unit?   |
|-------------------------|----------------------|-----------------------------------|---|
| Instructure (Parchment) | Business Partner     | Annual Contract                   | Students can order their transcripts 24/7 through the Parchment website and via integration between Parchment and Workday the majority of transcripts can be produced without the need for staff intervention. This reduces the workload on staff and provides revenue back to the college from the transcript fee students pay to Parchment.   |
| Hyland OnBase           | Business Partner     | Annual Contract                   | Allows documents to be stored digitally in a secure cloud-based system. Able to create document categories and types to adjust to the institution’s needs, and to create retention schedules to comply with all laws and best practices. Removes the need for physical storage space and allows staff from all locations to scan or upload documents directly to OnBase for faster and easier access to all other staff (based on security access), reducing the need to submit requests for a particular |

| Iron Mountain                        | Business Partner  | Monthly storage agreement - ongoing | Provides storage for physical documents that legally cannot be destroyed. Documents are stored in a more controlled and safe environment than available on-site.  |
| College Source - TES                 | Business Partner  | Annual subscription agreement       | Provides curriculum and course information from other institutions, both current and historical, and also allows us to create course articulation tables. Used primarily when performing transcript evaluations and transcribing transfer credit, and is also used by advisors when working with transfer students to perform preliminary evaluations for pre-requisites.   |
| National Student Clearinghouse (NSC) | Education Partner | Memorandum of Understanding         | Provide enrollment and graduation information each semester that is fed from NSC to the National Student Loan Database System for loan verification purposes. Allows students to request enrollment verifications based on data we uploaded and thereby reducing the need for manual processing of many requests. Data uploaded by Collin College and all other institutions are used at the state and federal level. |

**Description of Fields in the Following CIP Tables:**

**A. Outcome(s)** - Results expected in this program (e.g. Students will learn how to compare/contrast conflict and structural functional theories; increase student retention in Nursing Program).

**B. Measure(s)** - Instrument(s)/process(es) used to measure results (e.g. results of surveys, test item questions 6 & 7 from final exam, end of term retention rates, etc.)

**C. Target(s)** - Degree of success expected (e.g. 80% approval rating, 25 graduates per year, increase retention by 2% etc.).

**D. Action Plan** - Based on analysis, identify actions to be taken to accomplish outcome. What will you do?

**E. Results Summary** - Summarize the information and data collected in year 1.

**F. Findings** - Explain how the information and data has impacted the expected outcome and program success.

**G. Implementation of Findings** – Describe how you have used or will use your findings and analysis of the data to make improvements.

Target 4) Reduction in fulltime staff being pulled away from other duties to supervise phone bank

By advertising the direct line to the call center rather than campus numbers, call volume to each campus service desk has been greatly reduced, even though overall call volume has continued to increase for the call centers.

The 2017 Collin College Service Unity Survey Reports data can serve as the baseline satisfaction data, since it was the last report completed before the Call Center was implemented. At that time, 78.1% of students surveyed indicated they agreed or strongly agreed that that their overall service experience with Admissions & Records was satisfactory. In 2019, that grew to 84.6%, followed by 84% in 2021. In comparison, the percentage of students surveyed who indicated they agreed or strongly agreed that that their overall service experience with Financial Aid was satisfactory was 81.3% in 2017, peaking at 84.8% in 2019, and 82.4% in 2021.

**F. Findings (Outcome #1)**

The implementation of the call center has eliminated the use of temporary workers. While more is being spent to cover salary and wages of permanent employees than was used to cover 4 months of staffing peak season calls, the service level has dramatically increased by providing a direct point of contact for admissions and registration calls year-round. While the overall admissions and records service experience of the end-user seems to have improved between 2017 and 2021, this positive change may be related to call center implementation since financial aid did not see a similar change and already had the call center in place in 2017. [Unfortunately, the survey data for 2023 is not available due to the small number of participants, so the findings are inconclusive for the Year 4 submission.](#)

**G. Implementation of Findings**

Given the enrollment increase and addition of four new campuses, having a centralized call center provides the most effective operations for the institution. The new campuses do not have the capacity for team members to serve students in person, answer phones, and assist with on campus activities. The total number of FTE for the call center has increased to meet the demand due to enrollment growth.

**A. Outcome #2**

Increase efficiency, effectiveness and customer satisfaction by developing and utilizing an in-house application process.

**B. Measure (Outcome #2)**

Track out-of-state coded residency notification emails and compare

**C. Target (Outcome #2)**

Reduce the number of residency emails by 25%

**D. Action Plan (Outcome #2)**

The Texas Higher Education Coordinating Board requires all institutions to use the statewide Apply Texas application. When Apply Texas was originally designed, it primarily focused on questions for universities. Due to unique residency requirements for community colleges, Collin College developed an independent application that would capture all the necessary questions to aid in determining a student’s residency status. That status was then used to calculate their tuition.

|   |
|---|
| <p><b>E. Results Summary (Outcome #2)</b><br/>                 In the spring of 2022, the in-house application was discontinued due to security issues. Apply Texas became the institutional admissions application, with residency logic and mapping reviewed and updated at that time. The registrar team is currently working on review of existing residency process to eliminate redundancies with requirements and document review. <a href="#">For the Year 4 review, the target that was set did not provide baseline numbers to accurately measure success. Additionally, the institution has experienced enrollment growth and without the correct data available, the overall percentage reduction is not able to be calculated.</a></p> |
| <p><b>F. Findings (Outcome #1)</b><br/>                 Not Applicable</p>  |
| <p><b>G. Implementation of Findings</b><br/> <a href="#">For Fall 2024, Collin College will be converting the Student Information System to Workday. This new system will enable students to upload documents directly and securely without the need to email. It is anticipated that this new system will increase efficiency for the department.</a></p>  |

|   |   |
|---|---|
| <p><b>H. Outcome #3</b><br/>                 Increase efficiency, effectiveness and customer satisfaction by implementing College Source Degree Audit System</p>  |   |
| <p><b>I. Measure (Outcome #3)</b><br/>                 Track system reports and customer service surveys</p>  | <p><b>J. Target (Outcome #3)</b><br/>                 Increase customer satisfaction related to degree audit and schedule building by 25%</p> |
| <p><b>K. Action Plan (Outcome #3)</b><br/>                 College Source Degree Audit System was implemented and students access through CougarWeb.</p>  |   |
| <p><b>L. Results Summary (Outcome #3)</b><br/>                 Weekly reports are generated that demonstrate student usage of the degree audit system. Those reports do not provide cumulative data nor satisfaction of the degree audit tool. Unfortunately, those reports are also purged weekly creating a challenge in providing quantitative data.</p>   |   |
| <p><b>M. Findings (Outcome #3)</b><br/>                 The student satisfaction survey collects data related to the overall satisfaction with the registration process, but does not drill down to degree audit and schedule building. This makes it an ineffective measure for the outcome.</p>   |   |
| <p><b>N. Implementation of Findings</b><br/>                 There is no easy way to easily pull data on students taking courses inside vs outside their degree plan within Banner, but this should be resolved with the implementation of Workday. When Workday is launched baseline data should be established related to utilization of degree audits and student changes to their schedule.<br/> <a href="#">Year 4 Update: No metric was available to calculate customer satisfaction related to the degree audit. Given the Workday implementation, the College Source Degree Auditing System will be discontinued.</a></p> |   |

**Description of Fields in the Following CIP Tables:**

**A. Outcome(s)** - Results expected in this program (e.g. Students will learn how to compare/contrast conflict and structural functional theories; increase student retention in Nursing Program).

**B. Measure(s)** - Instrument(s)/process(es) used to measure results (e.g. results of surveys, test item questions 6 & 7 from final exam, end of term retention rates, etc.)

**C. Target(s)** - Degree of success expected (e.g. 80% approval rating, 25 graduates per year, increase retention by 2% etc.).

**D. Action Plan** - Based on analysis, identify actions to be taken to accomplish outcome. What will you do?

**E. Results Summary** - Summarize the information and data collected in year 1.

**F. Findings** - Explain how the information and data has impacted the expected outcome and program success.

**G. Implementation of Findings** – Describe how you have used or will use your findings and analysis of the data to make improvements.
