## Completions 2022-23

Institution: Collin County Community College District (247834)

User ID: p247834c

### Overview

#### Completions Overview

Welcome to the IPEDS Completions survey component. The Completions component is one of several IPEDS components that is conducted during the Fall data collection period. It collects the number of degrees and certificates awarded by field of study, level of award, race/ethnicity, and gender. The reporting period for the Completions component is during the 12-month time period beginning July 1 of the previous calendar year and ending June 30 of the current calendar year; therefore, for this year's Completions component, the reporting period is between July 1, 2021 and June 30, 2022. The Completions component is also collecting the number of students (e.g., completers) who earned awards between July 1, 2021 and June 30, 2022.

#### Data Reporting Reminder:

Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

#### Changes in reporting

The following changes were implemented for the 2022-23 data collection period:

- The 'Nonresident alien' category has been changed to 'U.S. Nonresident' but should include the same category of students.
- A gender question has been added at the end of the collection to collect information about students for whom gender does not fit the binary gender (Men/Women) categories provided. **Institutions should still allocate those students to the Men/Women category throughout the rest of the survey component at this time.** There are also new FAQs to help with questions about the new reporting.
- Added FAQ (#20) on reporting of undocumented and DACA students in race/ethnicity categories.

#### Use the 2020 CIP codes for this year's data collection.

The [CIP 2020 Website](#) includes a list of new CIP codes, a list of deleted CIP codes, a list of moved CIP Codes, and an online crosswalk of the 2010 CIP and 2020 CIP.

#### Some common Completions component errors include the following:

- Including award levels on your current year Completions that were not reported on your previous year's (PY) Institutional Characteristics (IC). [Award levels in the PY IC component cannot be changed; therefore, contact the IPEDS Help Desk at 1-877-225-2568 if you need assistance.]
- Forgetting to select CIP codes for new programs of study that are offered by the institution, but do not have completions for the reporting period.
- Forgetting to enter in zero in at least one of the cells for CIP codes that do not have completions.
- Even though Teacher Preparation certificate programs may require a bachelor's degree for admission, they are considered subbaccalaureate undergraduate programs, and students in these programs are undergraduate students.

Keep in mind that some information provided by institutions on the Completions component appear in the [College Navigator](#), which is a major tool used by consumers searching for information about postsecondary education. It is therefore vitally important that you include accurate information about your institution.

Survey materials can be downloaded using the following link: [Survey Materials](#).

#### All Completers

Institutions must report the following information. (Some data will be pre-populated from the completions by CIP code data.)

Number of students by gender and race and ethnicity earning an award between July 1, 2021 and June 30, 2022. Count each student only once, regardless of how many awards he/she earned. The intent of this screen is to collect an unduplicated count of total numbers of *completers*.

- Report Hispanic/Latino individuals of any race as Hispanic/Latino
- Report race for non-Hispanic/Latino individuals only

#### Gender Unknown or Another gender than Men/Women

- The 'gender unknown' category is to report students for whom the institution does not know a gender.
- Institutions should not ask students that do not select a binary gender to allocate themselves to a binary gender category; it is up to the institution to allocate unknown students and students that indicate another gender into the binary categories throughout the forms where required. One method commonly used by institutions is to allocate these students to the binary categories required in other parts of the form using the proportion of men to women reported.

Is your institution able to report **another gender** for the 2022-23 data collection? If you indicate 'No', your institution should leave the cells in the rows for '**Another gender**' blank (i.e., do not report 0). If you indicate 'Yes', but no students identified as **another gender**, please enter '0'.

Undergraduate students:

- Yes  
 No

Graduate students:

- Yes  
 No

Of the total students reported, how many students did you allocate to a binary gender category (Men/Women) because their gender was unknown or another gender than the provided categories?

## Summary

### IPEDS Completion Component Summary

IPEDS collects important information regarding your institution. All data reported in IPEDS survey components become available in the IPEDS Data Center and appear as aggregated data in various Department of Education reports. Additionally, some of the reported data appears specifically for your institution through the College Navigator website and is included in your institution's Data Feedback Report (DFR). The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your DFR. College Navigator is updated approximately three months after the data collection period closes and Data Feedback Reports will be available through the [Data Center](#) and sent to your institution's CEO in November 2023.

Please review your data for accuracy. If you have questions about the data displayed below after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or [ipedshelp@rti.org](mailto:ipedshelp@rti.org).

Reason	Over the past year or two, Collin has opened new certificate programs in Surgical Assisting, Medical Assisting, and Vocational Nursing. These programs are just beginning to take off.			
<b>Screen: Completers- Awards of 300-899 clock hours ...</b>				
Screen Entry	The age of under 18 is outside the expected range. Please correct the data or explain. (Error #10741)	Explanation	Yes	
Reason	The decrease in the number of completers 18 years-of-age and younger stemmed from the COVID pandemic. Collin offers its Heating, Ventilation, and Air Conditioning (HVAC) program at a service area high school for high school students. Several school districts were bussing students to the high school where the program was taught. When the COVID pandemic started, high schools decided to stop bussing their students to the program, and enrollment dropped sharply.			
<b>Screen: Completers- Awards of 900 or more clock hours ...</b>				
Screen Entry	The total number of completers (Men + Women) reported for this award level (787) is outside the expected range when compared to the prior year value. Please correct your data or explain. (Error #10584)	Explanation	Yes	
Reason	Collin's Cybersecurity, Welding, Automotive Technology, Medical Assisting Advanced Practice, Registered Nursing, and Construction Management programs are all relatively new programs that experienced substantial enrollment growth and, now, are beginning to have students complete. A variety of other new workforce education programs saw their first classes complete, albeit with smaller numbers than the programs cited above.			
<b>Screen: Completers- Associate's degree</b>				
Screen Entry	The age of under 18 is outside the expected range. Please correct the data or explain. (Error #10741)	Explanation	Yes	
Reason	Collin recently started Collegiate Academies with a number of service area high schools to facilitate high school students' associate degree completion by the time they graduate from high school. It has taken a while for the Collegiate Academies to get started, but 2021-2022 saw them begin to hit their strides. In addition, Collin's P-12 Outreach Program finally became fully staffed with College & Career Counselors in the high schools to advise high school students and help them enroll in Collin's courses to earn dual credit.
