Source: Collin College faculty workload data for fall 2019 (202010) and corresponding faculty job codes, both generated by Administrative Programming Services.

¹For purposes of this report, full-time faculty members are defined as anyone teaching a course section that appears in the fall 2019 FLAC System who either has a Banner contract type of FT and a Banner PRTPICT code of "FC" or "FN.". All other faculty members are defined as part-time.

Note 1: Statistics include information from the fall 2019 FLAC System as of 9/2/2019. Noncredit students are not reflected in this report.

Note 2: To facilitate payment of salaries, the FLAC data occasionally include multiple instances of a single section when that section is taught by more than one faculty member. This occurs in learning communities, a number of lab and clinical sections in Health Sciences and Emergency Services, and a few sections in other divisions. However, for purposes of this report, counting contact hours associated with multiple instances of a single section would inappropriately inflate contact hour totals by counting the same contact hours more than once. To avoid over-counting contact hours, multiple instances of the same section were either collapsed into a single instance (learning communities and instances when only one faculty member received remuneration for the section) or enrollment numbers were distributed across the instances to more accurately reflect the actual total enrollment generated.

Source: Collin College faculty workload data for fall 2019 (202010) and corresponding faculty job codes, both generated by Administrative Programming Services.

¹For purposes of this report, full-time faculty members are defined as anyone teaching a course section that appears in the fall 2019 FLAC System who either has a Banner contract type of FT and a Banner PRTPICT code of "FC" or "FN.". All other faculty members are defined as part-time.

Note 1: Statistics include information from the fall 2019 FLAC System as of 9/2/2019. Noncredit students are not reflected in this report.

Note 2: To facilitate payment of salaries, the FLAC data occasionally include multiple instances of a single section when that section is taught by more than one faculty member. This occurs in learning communities, a number of lab and clinical sections in Health Sciences and Emergency Services, and a few sections in other divisions. However, for purposes of this report, counting contact hours associated with multiple instances of a single section would inappropriately inflate contact hour totals by counting the same contact hours more than once. To avoid over-counting contact hours, multiple instances of the same section were either collapsed into a single instance (learning communities and instances when only one faculty member received remuneration for the section) or enrollment numbers were distributed across the instances to more accurately reflect the actual total enrollment generated.

Note 3: The abbreviations "(DW)" signifies that a dean and associate dean has District-wide responsibility for the associated discipline or disciplines. For disciplines not so identified, the dean and associate dean have responsibility only for courses taught at their campus or at off-campus instructional sites assigned to their campus.
