

Program/Initiative: EARLY ALERT SYSTEM

Situation: The fall-to-fall persistence rate for first-time-in-college (FTIC) students at Collin is, on average, several percentage points lower than the target rate of 52%, and is even lower for male and traditionally underserved FTIC students. In addition, underserved FTIC students earn fewer A,B, and C grades, and more D,F, and W grades than the general FTIC population. This initiative is designed as a part of the 2025-2030 quality enhancement plan (QEP) to help students transition successfully into college life such that they can excel in their first year and beyond.

Inputs	Outputs		Outcomes -- Impact		
	Activities	Participation	Short	Medium	Long
<p>All faculty</p> <p>Staff/personnel among student support services</p> <p>Time to research, implement, and/or purchase early alert processes or software</p> <p>The potential early alert software itself</p> <p>Funding for a potential early alert software</p> <p>Time to train institutional stakeholders on how to use early alert software or implement new processes</p>	<p>Convene early alert system (EAS) committee with both faculty and staff</p> <p>Research available early alert software options or new processes to be scaled across the district</p> <p>Acquire and install/activate software if needed</p> <p>Train faculty and staff on new processes and/or software functions</p> <p>Implement EAS for targeted student population</p> <p>Faculty report on student changes in behavior, academic performance, and attendance</p> <p>Students are contacted by multi-disciplinary alert/intervention team of responders</p> <p>Conclusions of early alert outreach are stored in single location/system</p>	<p>External audiences</p> <ul style="list-style-type: none"> • Early alert software vendor(s) <p>Internal audiences</p> <ul style="list-style-type: none"> • Students receiving early alert intervention • Faculty and staff participating on EAS committee • Faculty reporting early alerts • Staff/personnel carrying out student interventions • IR or IT managing the early alert software/collecting early alert data 	<p>Intervention responders successfully reach student reported through early alerts</p> <p>Faculty feel confident and prepared to use the early alert system</p>	<p>Student acts on recommendations from intervention responders</p>	<p>Student passes the course in which they received the early alert, or withdraws with no academic penalty</p> <p>Faculty do not feel inconvenienced by early alert system</p> <p>Faculty and staff perceive early alerts as effective</p>
