## Program/Initiative: OBJECTIVE 7 - INCREASE USE OF FORMAL SUPPORT SYSTEMS

**Situation:** The fall-to-fall persistence rate for first-time-in-college (FTIC) students at Collin is, on average, several percentage points lower than the target rate of 52%, and is even lower for male and traditionally underserved FTIC students. In addition, underserved FTIC students earn fewer A,B, and C grades, and more D,F, and W grades than the general FTIC population. This initiative is designed as a part of the 2025-2030 quality enhancement plan (QEP) to help students transition successfully into college life such that they can excel in their first year and beyond.
