

## Staff Council Meeting

April 14, 2023

*The April meeting was not an official meeting with attendance taken and a formal agenda.*

**Josh Snyder:** Kudos to the Meals on Wheels and the student employee of the year committees. The Student Employee of the Year ceremony was a great success.

The Technical Campus open house is this weekend.

The 5K is on Saturday at the Frisco Campus; we are still looking for volunteers to work at the water station. Two thousand runners have signed up for the event.

**Eric Donihoo:** We need more volunteers to serve as campus ambassadors. The time commitment is minimal; this is a great way to meet new employees and introduce them to Staff Council.

We have 37 full-time ROSE award nominees and three part-time nominees.

The Collin Bound event at the Wylie Campus went well. This event was for seniors graduating from high school this year and coming to Collin in the fall.

**Gen Northup:** Please remember that we have the EAP if anyone needs to talk to someone following the swatting event at the Plano Campus.

**Scott Knight:** We are creating a video class covering the appropriate civilian response to active shooters. All current employees will be required to watch this training.

**Alicia Schulze:** I recently told a student she was eligible for state and federal financial aid grants. The student's father has recently passed away, and the student is helping her mom with bills. This funding will make a difference for this student.

**Christine Mook:** National Library Week is coming up, April 23-29. Check your local library to see what events your campus will host.
