

Change Default Profile View to 'Worker'

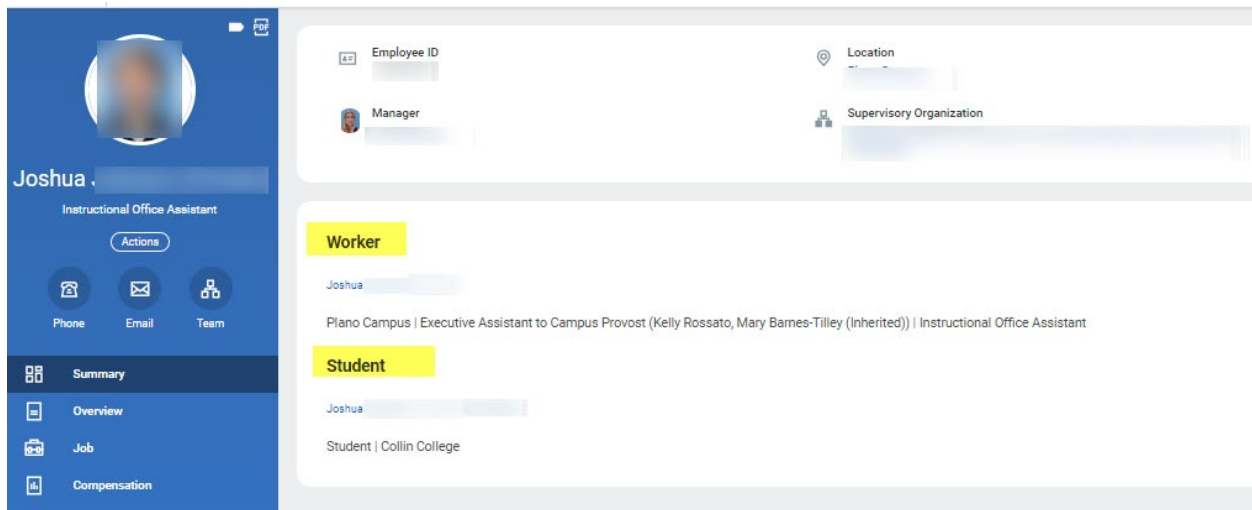

Overview

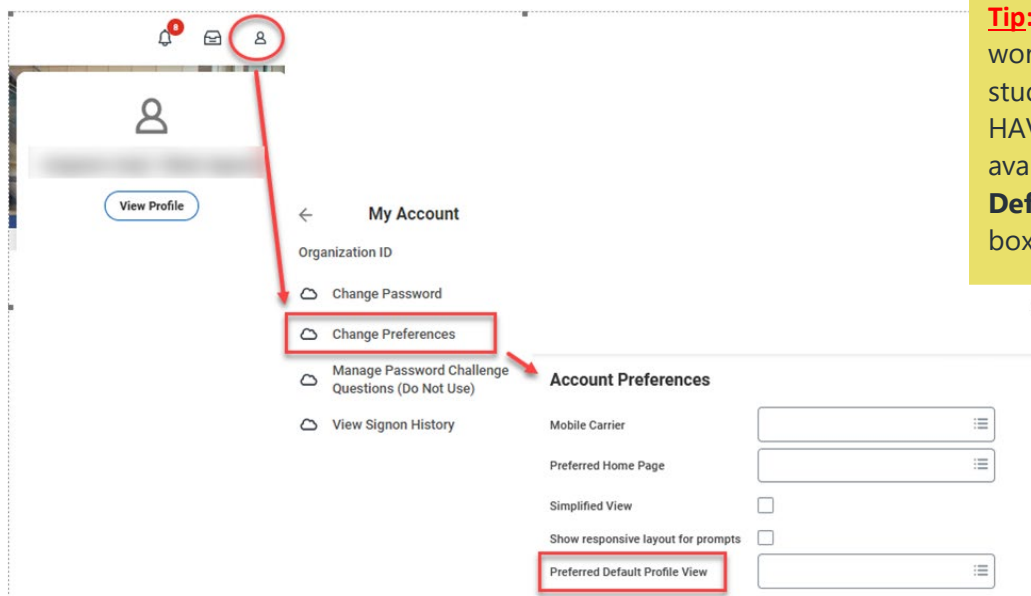

For those users, who own two types of profiles in Workday, that would like to switch their default profile from 'Student' to 'Worker'.

Default Profile View

1. Navigate to [View Profile](#), then [My Account](#).

2. Now select [Change Preferences](#), then [Account Preferences](#).
3. From here change the [Preferred Default Profile View](#) from 'Student' to 'Worker'.

Tip: Users that are only workers or only students will NOT HAVE the option available **Preferred Default Profile View** box.
